TRILAKES REGIONAL SEWER DISTRICT'S FOG PROGRAM MAINTENANCE LOG

(Per Section 3.3 of the District's FOG Ordinance, this sheet must be completed for every maintenance activity on the grease trap/interceptor that is completed by the facility. This log must be available for inspection by District staff at any time. It should be copied and included with the quarterly, semi-annual or annual report required of each facility by the District. Falsification of this log sheet or failure to perform required maintenance is a violation of the District's FOG Ordinance (see Section 6 and Appendix A of the FOG Ordinance for violation fees.)

Name of Facility:	Phone Number:				
Address:	City/State/Zip:				
Location of Grease Trap or Interceptor (Ex: Inside, Under Sink, Outside):					

Directions: Use this form to track District-required maintenance of grease traps and/or interceptors. Use a different sheet for each trap/interceptor in your facility. This form is available at www.tri-lakessewer.com.
